EXPERIENCE

2024

Level & Technical Designer

BOSS FIGHTERS (PIXWARD GAMES)

Designed Toxic Arena level and guided through concept to release; Created and playtested two blockouts for future levels. Authored documentation, prototyped features, and implemented final blueprints with new gameplay mechanics. **Collaborated** with development, art, and QA teams on optimization, design, and content production. Stayed in touch with the community, using player feedback to refine design.

2022

Level & Game Designer

CyberPuck (Freelance)

Prototyped core gameplay and designed the playfield and arena accordingly. Communicated closely with programmer and artist to deliver the game vision. **Organized** playtests, collected and analyzed player feedback. Created UX maps and interfaces.

2021

UX Designer

UFL (Strikerz Inc.)

Designed UX maps and acted as primary point of contact on interface-related matters. Crafted documentation for cross-functional teams. **Supported** developers, testers, and producers with interface-related solutions.

2020

Narrative & Technical Designer

Atlantis Odyssey (Vizor Games)

Directed narrative design, delivering story through levels, quests and cutscenes. Contributed to level design and polishing, scripted cutscenes and quests, and created in-game interface layouts. Handled full production cycle: from early prototype to release and ongoing live support.

2019

Game Designer

Black Skylands (Hungry Couch)

2017

Level & Game Designer

Loyalty: Knights & Brides (Vizor Games)
